Use the route maps on the next two pages to locate the above places of interest

Situated on the re-developed National Garden Festival Site, this is one of the most popular Black Prince starting points. On site, there is an exciting Water World, dry ski-slope, multi-screened cinema, ten pin bowling and shopping centre . . . and that is before you get on the water!

The variety of routes is wide with the Cheshire Ring and Four Counties being favourites.

You travel through some of the waterways' most beautiful scenery, along with the pure contrast of the Potteries, Royal Doulton, Cheddleton Mill and Wedgwood industries. For the more energetic there's Alton Towers near the end of the Caldun Canal.
