Remote control

A. Unfolding / Folding.
B. Unlocking.
   Disarming the alarm.
C. Locking.
   Locating the vehicle.
   Arming the alarm.
D. Guide-me-home lighting.

Fuel tank

Fuel tank capacity: approximately 50 litres.

Refuelling
1. Open the filler flap.
2. Remove the filler cap.
3. Hook the filler cap.

Bonnet

BlueHDi and AdBlue® additive

The objective of BlueHDi is to reduce by up to 90% the emissions of NOx (nitrous oxides) in the air, using a system that converts NOx into water vapour and nitrogen in a dedicated catalytic converter: SCR (Selective Catalytic Reduction).

Topping-up

Filling the AdBlue® tank can be done using 5 or 10 litre containers or 1.89 litre bottles.

This operation can also be carried out by a PEUGEOT dealer or a qualified workshop.

Opening

A. Interior release lever.
B. Exterior safety catch.
C. Bonnet stay.

⚠️ Take care when working under the bonnet, as certain areas of the engine may be extremely hot (risk of burns) and the cooling fan could start at any time (even with the ignition off).
Boot

Opening
☞ After unlocking the boot or the vehicle, press the opening control which releases the tailgate, and then guide it open.

Closing
☞ Lower the tailgate using the interior grab handle.
☞ If necessary, press down on the tailgate to fully close it.

Temporary puncture repair kit
Access to the kit

Spare wheel
Access to the tools

Under-inflation detection
⚠️ The system monitors the pressures in the four tyres, once the vehicle is moving.

It compares the information given by the four wheel speed sensors with reference values, which must be reinitialised every time the tyre pressures are adjusted or a wheel changed.

The system triggers an alert as soon as it detects a drop in the inflation pressure of one or more tyres.

Parking sensors

The audible (front and rear) and visual (rear) parking sensor system consists of proximity sensors, installed in the rear bumper.

The sensors detect any obstacle which enters its field of operation (person, vehicle, tree, fence, ...) behind the vehicle during the manoeuvre.

Certain objects detected at the beginning of the manoeuvre will no longer be detected at the end of the manoeuvre due to the blind spots between and below the sensors.

Examples: stoke, roadworks cone or pavement post.

Reversing camera

The reversing camera is activated automatically when reverse gear is engaged.

The blue lines represent the general direction of the vehicle (the difference corresponds to the width of your vehicle without the mirrors).

The red lines represent a distance of about 30 cm beyond the edge of your vehicle’s rear bumper.

The green lines represent distances of about 1 and 2 metres beyond the edge of your vehicle’s rear bumper.

Park Assist

The system detects a parking space and then provides assistance with the parallel parking manoeuvres.

It controls the steering and provides visual and audible information to the driver.
**Parking brake**

**Release**
- Pull the parking brake lever up gently, press the release button then lower the lever fully.

**Application**
- Pull the lever up to immobilise your vehicle.

**Driving recommendations**
- 10 km/h - 7 mph MAX
- 150 mm

**Active City Brake**

A preventive driving assistance system that, using a sensor located at the top of the windscreen, automatically applies the vehicle’s brakes if driving behind a vehicle that is slowing down rapidly, stopping or is stationary. The objective is to avoid a collision or reduce the speed of impact.

**Gearbox**
- Park position.
- Reverse.
- Neutral.
- Automatic mode.
- Manual mode.
- Change up / Change down.
- Sport programme.
- Snow programme.

**Manual gearbox**

**5-speed**

**Engaging reverse**
- Move the gear lever fully to the right then backwards.

**6-speed**

**Engaging reverse gear**
- Raise the collar below the gear lever knob, then push the lever fully to the left and then forward.

**Electronic gearbox**

**5-speed**

**6-speed**

**Moving off**
Lever at position N.
- Press the brake pedal firmly.
- Start the engine.
- Place the lever at A or R.
- Release the brake pedal and press the accelerator pedal progressively.
Automatic gearbox

Moving off
Parking brake applied.
☞ Start the engine.
☞ Lever at position P or N.
☞ Press firmly on the brake pedal.
☞ Release the parking brake.
☞ Place the selector at D or R.
☞ Release the brake pedal and press the accelerator pedal progressively.

The vehicle then moves off.

Speed limiter

"LIMIT"

1. Speed limiter mode selection / off.
2. Increase the registered speed setting.
3. Decrease the registered speed setting.
4. Speed limiter On / Pause.

Cruise control

"CRUISE"

1. Cruise control mode selection / off.
2. Increase the registered speed setting.
3. Decrease the registered speed setting.

Stop & Start

Perfect for urban use, the Stop & Start system reduces fuel consumption and exhaust emissions as well as the noise level when stationary.

Operation

STOP mode

ECO The "ECO" lamp comes on in the instrument panel and the engine goes into standby.

With e-HDi or BlueHDi Diesel and an electronic gearbox:
- Speed below 40 mph (6 km/h).
- Gear lever in position N
Or
- Brake pedal pressed.

With BlueHDi Diesel and a manual gearbox:
- As soon as the vehicle stops.
- Gear lever in neutral and clutch pedal released.

With PureTech petrol and a manual, electronic or automatic gearbox:
- As soon as the vehicle stops
- Gear lever in neutral and clutch pedal released (manual gearbox).
- Brake pedal pressed or gear lever in position N (electronic or automatic gearbox).

START mode

ECO The "ECO" lamp goes off and the engine restarts.

With a manual gearbox:
- Clutch pedal depressed.

With an electronic / automatic gearbox:
- Gear lever in position A/D or M.
- Brake pedal released.
or
- Gear lever in position N.
- Brake pedal released.
- Then gear lever in position A/D or M.
or
- Reverse gear engaged.

Instrument panels

Control button

Recall the servicing information.

Adjust the time.
Reset the function selected (service indicator or trip recorder).
Depending on version:
- Adjust the time.
- Digital speedometer.
**Wipers**

**Front**
- 2 Fast (heavy rain).
- 1 Normal (moderate rain).
- Int Intermittent (proportional to the speed of the vehicle).
- 0 Park.
- AUTO AUTO mode
  - Single wipe (press down and release).

**Rear**
- 0 Park.
- Intermittent wipe.
- Wash-wipe (set duration).

**Window controls**

**Open**
Press the control without going past the point of resistance. The window stops as soon as the control is released.

**Close**
Pull the control without going past the point of resistance. The window stops as soon as the control is released.

Inhibit the rear controls.

**Lighting**

**0** Lighting off (ignition off) / Daytime running lamps (engine running).

**AUTO** AUTO mode
  - Sidelamps only.
  - Dipped or main beam headlamps.

**Sunroof blind**

**Opening**
Take the blind by its handle and push it rearward to the desired position.

**Closing**
Take the blind by its handle and pull it forward to the desired position.
**Heating / Ventilation**

*Air conditioning*

- Air distribution adjustment
- Air flow
- Temperature
- Air intake / Air recirculation
- A/C Air conditioning On / Off

**Dual-zone digital air conditioning**

- AUTO Automatic programme
- Air flow
- Temperature
- Air distribution
- Air intake/Air recirculation
- A/C Air conditioning On / Off

**Child lock**

*Manual operation*

Mechanical system to prevent opening of a rear door using its interior lever. The control is located on the edge of each rear door.

**Electric operation**

Electric system, with the control located at the front, for locking the rear doors so that they cannot be opened using their interior controls.

**Front airbags**

*Deactivation*

Only the passenger’s front airbag can be deactivated.

- With the ignition off, insert the key into the passenger airbag deactivation switch.
- Turn it to the "OFF" position.
- Remove the key keeping the switch in the new position.

**Carrying children**

"ISOFIX" mountings
3-door

Access to the rear seats

Pull only this control upwards to fold the backrest and slide the whole seat forward. The front seat returns to its original position when straightening the backrest.

Standard model

Sport model

One-piece rear seats

Bench seat with fixed one-piece cushion and folding one-piece backrest.

2/3 - 1/3 split bench rear seat

Bench seat with fixed one-piece cushion and split backrest (left hand 2/3, right hand 1/3) which can be folded individually to adapt the load space in the boot.

Date and time

Instrument panel

Each press of this button moves between the following settings:
- hours,
- minutes,
- 12 or 24 hour format.

Touch screen

Press MENU to display the "MAIN MENU".

Select "Settings".

Select "Secondary page".

In the secondary page, select "Time/Date".

Select "Adjust time" or "Adjust date".

Modify the setting using the virtual keypad then confirm.

Press "Confirm" to save and quit.
To make the most of the special ergonomics of the Peugeot i-Cockpit, adjust in the following order:
- the height of the head restraint,
- the seat backrest angle,
- the seat cushion height,
- the longitudinal position of the seat,
- the reach and then height of the steering wheel,
- the interior and door mirrors.

**Head restraints**

- To raise the head restraint, pull it upwards.
- To remove the head restraint, press the lug A and pull the head restraint upwards.
- To put the head restraint back in place, engage the head restraint stems in the openings, keeping them in line with the seat back.
- To lower the head restraint, press the lug A and the head restraint at the same time.

**Front seats**

**Standard**

**Backrest**

**Height**

**Forwards-backwards**
**Adjusting the steering wheel**

- **When stationary**, pull the control lever to release the steering wheel adjustment mechanism.
- Adjust the height and reach of the wheel to suit your driving position.
- Push the control lever to lock the steering wheel adjustment mechanism.

**MIRRORS**

**Door mirrors**

**Manual**

- **Adjustment**
  - Operate the lever in the four directions to adjust the angle of the mirror glass.
- **Folding**
  - Fold the mirror manually to protect it when the vehicle parked.
  - Unfold it before moving of again.

**Electric**

- **Adjustment**
  - Move control A to the right or to the left to select the corresponding mirror.
  - Move control B in all four directions to adjust.
  - Return control A to the central position.
- **Folding**
  - Control A in the central position, pull it back to fold the mirrors.
  - Pull it again to unfold them.
Manual rear view mirror

The rear view mirror has two positions:
- day (normal),
- night (anti-dazzle).
To change from one to the other, push or pull the lever on the lower edge of the mirror.

Automatic rear view mirror

A sensor measuring the light from the rear of the vehicle, automatically and progressively assures the adjustment.

Emergency call

Operation: "Emergency call".
Pressing this button for more than 2 seconds starts a call to the Peugeot Connect SOS centre.
- The green indicator lamp flashes.
- A voice message confirms that the call is being dealt with.
The green indicator lamp on fixed indicates that communication has been established. It goes off at the end of the communication.

Inadvertent press:
- pressing brings on the green indicator lamp.
- pressing again immediately cancels the call. A voice message confirms the cancellation.
- If the call connects, explain to the contact that it was a mistake. The green indicator goes off at the end of the call.

Assistance call

In the event of a breakdown, pressing for more than 2 seconds starts the call.
A voice message confirms that the call has been made.

Inadvertent press:
- pressing again immediately cancels the call. A voice message confirms the cancellation.

Trip computer

Instrument panel screen

- Each press on the end of the wiper control stalk displays the information in turn.
- The current information with:
  - the range,
  - the current fuel consumption,
  - the Stop & Start time counter.

Touch screen

Press the MENU button to display the main menu.

Select the "Driving" menu.

Select the desired tab using your finger.
7-inch touch screen

**Navigation**
(Depending on equipment)
Enter navigation settings and choose a destination.

**Radio Media**
Select an audio source, a radio station, display photographs.

**Settings**
Adjust the settings for sound (balance, ambience, ...) and the display (language, units, date, time, ...).

**Connected services**
(Depending on equipment)
Connect using the "Internet browser". Operate certain applications on your smartphone via MirrorLink™ or CarPlay*.

**Driving**
Access to the trip computer. Activate, deactivate or enter settings for certain vehicle functions.

**Telephone**
Connect a telephone by Bluetooth*. Access to the CarPlay* function after connection of your smartphone by USB cable.

Steering mounted controls

- Press: mute on / off.
- Increase volume.
- Decrease volume.
- SRC: Change audio source: radio, media.

- Telephone: start or answer a call. Call in progress: telephone menu (end call, secret mode, hands-free mode).

Telephone, press and hold: reject an incoming call, end a call in progress; other than call in progress, telephone menu.
Radio: display the list of stations.
Media: display the list of tracks.
Radio, press and hold: update the list of stations received.
Audio system

Audio system / Bluetooth

Radio

Presetting a station

Press SRC/TEL repeatedly to select the FM1, FM2 or AM waveband.

LIST

Display the list of stations received, the CD/USB tracks or folders.

Press and hold: update the list of stations received.

Press and hold one of the buttons to preset the station being listened to. The name of the station is displayed and an audible signal confirms the preset.

Steering mounted controls

Radio: select the previous / next preset station.

CD / USB: select the genre / artist / folder / playlist from the list depending on classification.

Select the previous / next item in a menu.

Radio: automatic search for a higher frequency.

CD / MP3 / USB: select the next track.

CD / USB: press and hold: fast forward.

Change the audio sound.

Confirm a selection.

Start/end call with the telephone.

Press and hold: access to the call log.

Radio: automatic search for a lower frequency.

CD / MP3 / USB: select the previous track.

Mute: cut the sound by simultaneously pressing the volume increase and decrease buttons.

Restore the sound: by pressing one of the two volume buttons.

Volume increase.

Volume decrease.

Your vehicle will be fitted with only some of the equipment described in this document, depending on its trim level, version and the specification for the country in which it was sold.

This document is not a substitute for the detailed study of the handbook.
