

BERCHTESGADEN TO ALTENMARKT

STELLPLATZ TO UNTERBERG- 13Km about 20 mins – ONLY IF CLEAR DAY

Lift is 23Euros pp. It is possible to hike up and down though- Up 14E/ down 12.50E

THERE IS A CHALLENGING HIKE TO ICE CAVES- SEE NOTES BELOW- THINK THIS IS TOO CHALLENGING THOUGH

There are hikes available at the top station of the cable car.

OPTION ON THE WAY- HIKE THE ALMBACHKLAMM- 6Km, about 10 mins

Difficulty: Easy to steep, duration 1 - 3 hrs, depending on option. Accessible only in summer. Difference in elevation about 200m (650 ft).

Starting point: Marble mill (Kugelmühle), located just off the road between Berchtesgaden and Salzburg, Kugelmühle parking lot can be reached by car, on foot from Berchtesgaden (approximately 45 min. each way) or by local bus (10 min bus ride, the bus stop is on the main road, 5 min. walk to Kugelmühle).

Description: The Almbach Gorge is one of the prettiest in the Eastern Alps. After the parking lot, you will pass an attractive inn, next to which you can view the marble mill (worth a look- makes round balls out of stone). A few steps beyond the marble mill, you will have to pay a small entrance fee (discount if you have a visitor's card Kurkarte). As you proceed, you will notice that each of the bridges and overpasses is numbered. The trail leads up through the deeply cut gorge, past thundering waterfalls and crystal-clear pools.

If you continue to bridge 19 and then turn back to the trail head, the hike will average 1 hr, 20 min. If you turn right at bridge 17 and follow the steep uphill trail to Ettenberg, the whole round-trip hike will take about 2 hrs, 20 min. The view from Ettenberg is impressive, the self-service inn at the top and the pilgrimage church of Ettenberg are definitely worth the rather steep incline.

should be able to park

EITHER CONTINUE ONTO UNTERSGERGBAHN OR GO BACK AND HEAD ACROSS TO GOLLING-

To Untersbergbahn- 7.5 Km, ¼ hour

OR

To go to GOLLING can either continue to Untersbergbahn anyway then head back down, or cut across via Hallein.

Maps will go via motorway but we don't have to.

Would need a Vignette if we choose motorway.

UNTERBERG- ICE CAVE IN MOUNTAIN

The Schellenberger ice cave is located at 1570 meters. Ideally, the visitors hike up early in the season, after opening the ice cave. You can reach the entrance from starting in the valley or make a long hike from the mountain station of the cable car. As earlier you visit the cave in the spring as more ice is in the Schellenberger ice cave. The cave tours takes about 45 minutes (depending on the season).

Before it goes down the visitors get carbide lamps.

Please, you must be dressed warmly. Temperatures in the cave are partly below zero. So don't forget the warm clothing even in the summer!!

For more detail information about tours and timetables please check the village homepage or the Toni Lenz lodge homepage.

[Gemeinde Marktschellenberg](#) und bei der [Toni Lenzhütte](#).

Track to the Ice cave:

Between the village Marktschellenberg and the border to Austria, on the B 305, you will find a small, free car park for the Schellenberger ice cave. Here, close to the historical "boarder tower", the challenging climb begins on a good path. Through shady forests you will reach the treeline in about 1,5h to 2 hours. Above you will have a magnificent view of the Untersberg and the Toni Lenz Hut (1.450m). From this point it's a other good hour. From there it's only 20 minutes to Schellenberger ice cave.

The way across the Untersberg plateau with help from the cable car:

The ice cave is in about 2 hours hiking from the Untersberg mountain top station reachable. The path leads through the high alpine karst plateau, then you will pass the Thomas Eder path (one of the most unique and most interesting of its kind), for approximately 200m deeper located, you can find the entrance to the "Schellenberger ice cave".

More hiking tours / return way:

From the cave entrance to the Thomas Eder path which opens up in bold lines (by 4 tunnels) the vertical rock edge to Mittagsscharte. Above the Mittagsscharte you can choose to the right in direction Salzburg Hochtron (1853m) or to the mountain station of the cable car back, or left to Störhaus (3 hours).

Detail-information about the ice cave:

UNTERBERG TO GOLLING WATERFALL- 20Km about ½ hour

Can park at the Waterfall-

GOLLING WATERFALLS – 3.3km from Stellplatz, a 40 min walk – can park there (only if we needed to grab a space at the stellplatz early- otherwise drive there.

GOLLING WATERFALL to SALZACHOFEN GORGE- 6Km about 10 mins

NOTE- AS SOON AS YOU COME OUT OF THE TUNNEL WE NEED TO PARK-

GORGE SALZACHOFEN- 3.5km from Stellplat- 1 hour walk, can park there

From the nearby Mountain Pass Lueg it is only a few steps to the "SALZACHÖFEN".

This is an impressive sight; the place where the Tennengebirge mountains break through the chalk of the Dachstein to the Hagengebirge mountain range and fall away 80 metres.

The rocky walls are full of immense cavities and swamps carved out by the gushing waters.

At the 'dome' - considered the part most worth seeing - the rock walls seem to close up completely.

INFO:

The "Salzachöfen" can be visited from the beginning of May till the end of October.

It is a 5-minute walk from the car park, a 60-minute walk from town.

PRICES:

€ 2,50 for adults, \$2 Euro for retired persons

SALZACHOFEN GORGE to GOLLING STELLPLATZ- 4Km about 5 mins

Review-

Be sure to arrive before 23h, Because then the reception of the adjoining pool closes. That's your last option for toilet and a shower, until the next morning at 10. Chemical toilet can be used without key water takes 10ct coins per 8L and electricity 50ct coins per 1 kWh. Quiet and great view. Parking lot ++. Beats parking on an emergency lane by a small margin.
